## EJBCA Enterprise 7.3 Released!

2019-11-01 - Rubina Akram - 0 Comments - in PrimeKey Release Information

We're proud to announce the release of EJBCA 7.3.

With this release, our ACME implementation has been updated to fully support the final version of the ACME IETF standard, RFC 8555. The release also brings a new tool for importing YAML exports from ConfigDump into EJBCA, as well as a new crypto token type for integrating with Azure Key Vault.

### **Release highlights include:**

- ACME RFC Support
- ConfigDump Import
- Azure Key Vault Crypto Token
- OCSP Archive Cutoff
- Certificate Transparency Sharding
