2021-08-10 - Rubina Akram - Comments (0) - PrimeKey Release Information

The PrimeKey EJBCA team is pleased to announce the release of EJBCA 7.7.0.

Running hot on the heels of EJBCA 7.6.0, this feature release is our final push towards full Microsoft Windows compatibility.

With this release, we're aiming to be able to offer a fully holistic solution to any Microsoft based enterprise looking to power their PKI with the easiest, fastest, and most powerful solution available.

Release highlights include:

- Microsoft Windows Compatible CA Key Updates
- Approvals in ACME Workflow
- Azure Blob CRL Publisher
- Sunset of JDK8 Support
