

EJBCA Enterprise 7.9.0 Released!

2022-04-27 - Rubina Akram - Comments (0) - PrimeKey Release Information

The EJBCA team is pleased to announce the release of EJBCA 7.9.0.

This release introduces support in EJBCA for acting as Enrollment Authority in C-ITS PKI, enabling vehicle manufacturers to take part in evolving C-ITS ecosystems. The release also includes enhancements to Intune integration and RA Web.

Included in this release are also the changes made in EJBCA 7.8.2, which was only released internally.

Deployment options include [EJBCA Hardware Appliance](#), [EJBCA Software Appliance](#), and [EJBCA Cloud](#).

Release highlights include:

- Log4j Upgrade
- Use of Microsoft Graph API in EJBCA Intune Integrations
- Support for acting as Enrollment Authority in C-ITS PKI

Announcements:

- Public Web Deprecated
- CMP over TCP no longer Supported
- SaferDailyRollingFileAppender no longer Supported
