NPKD 1.6.0 Released!

2021-11-24 - Rubina Akram - 0 Comments - in PrimeKey Release Information

PrimeKey is pleased to announce the release of NPKD 1.6.0 .

This release brings several features to improve the usability of NPKD. With this release, we have also updated the platform support.

Release highlights include:

- Tracking of the Source of Data
- Audit Log Export to CSV
- Overview of Own Country's Information
- Support for Newer Java and Wildfly Versions

Upgrade Information:

The **importedFrom** column has been added to the `Crls`, `CscaCertificates`, `DeviationLists`, `DsCertificates`, and `MasterLists` database tables. The column will hold the information about the data source (imported manually, downloaded from ICAO, or not specified for old data).

To add the new column and indexes, run the upgrade script available in **doc/sql-scripts/upgrade-1.5-to-1.6.sql** in the release ZIP file.
